

*8<sup>th</sup> International Sol-gel Society (ISGS) Workshop:*  
Sustainable Sol-Gel Energy Materials  
**SUSGEM 2023**

October 1<sup>st</sup> to 4<sup>th</sup> 2023, Castelló de la Plana, Spain

April 2023

Dear colleagues,

We are delighted to announce the *8<sup>th</sup> International Sol-gel Society (ISGS) Workshop* focused on Sustainable Sol-Gel Energy Materials (SUSGEM 2023), which will be held in Castelló de la Plana, a pleasant Mediterranean-style city in the east of Spain, from October 1<sup>st</sup> to 4<sup>th</sup>, 2023.

Experts in several research fields will deliver lectures covering different topics related to Sol-Gel Chemistry and Energy, including materials, properties, processing, and technologies, with a look towards Sustainability.

SUSGEM 2023 aims at gathering early career researchers and world-leading scientists, being an excellent opportunity for young scientists to present your research in a relaxed atmosphere, facilitating scientific exchanges and making connections. So, take a break in the lab, and join in!!

For more information about the workshop, visit the website:
